Whaia Kia Tutuki ~ Strive to your Potential

12 Haratua 2022

### Tēnā Koutou katoa

We are really looking forward to hosting school assembly tomorrow for the first time in a very long time! Team Māharahara will be hosting assembly, which will be a celebration of learning and our tamariki. Due to the COVID disruptions over the past few months, this assembly will be the first time many of our tamariki get to experience being a part of our whole kura whānau - which is great as we begin to "rebuild" our school community. Assembly will start at 11.45am and whānau are welcome to attend - please wear a mask if you do come along.

### Conferences

Our mid year Parent/Teacher Learning Conferences will be held on **Thursday 7 July**. These conferences will be a chance for you to meet with your child's teacher to discuss your child's learning, progress and their mid year achievement. That is, where they are achieving in relation to curriculum expectations. Next week, the online booking link will be shared with you, so you can book in your time. Meanwhile, save the date in your calendar or diary as we would appreciate seeing all of you at the conferences.

### The Living World

Our Curriculum focus this term is Science, The Living World. The Living World is all about understanding and appreciating the diversity of living things, the differences between living and non-living things and the grouping and classification of different living things. Science is a fantastic, hands-on curriculum, where tamariki get to explore, question, trial and wonder. This image shows the tamariki in Akomanga 19 looking for insects.

### Thank you!

A MASSIVE thanks to The Lion Foundation for their generous donation with covering the bus transport costs of our school camp - ngā mihi!
